Case Number: 1:23-cr-97

Re: Motion to Dismiss Indictment

Dear David Novak,

I, Mohammed Chhipa, the defendant in the above-referenced matter, respectfully move this Court to dismiss the indictment against me. Furthermore, I seek to challenge the validity of the indictment and request that this Court address several concerns regarding the process by which the indictment was obtained.

Challenge to the Validity of the Indictment

I question whether a grand jury properly indicted me in this matter. As the grand jury proceedings are secret, I have no way of independently verifying the existence of a grand jury or the legitimacy of its proceedings. Therefore, I respectfully ask this Court to provide clarification and confirmation that a grand jury was indeed convened and that the indictment was lawfully obtained. I believe that transparency in this process is essential, especially given the potential for errors or misconduct in secret proceedings.

Request to Unseal All Filings

I request that this and all other motions, filings, and related documents in my case be unsealed and made publicly accessible. I believe that there has already been excessive sealing, censorship, and redactions in this case, and I seek to prevent any further sealing of documents. I assert my right to an open and transparent judicial process and request that the Court unseal all past and future filings in this case.

Acknowledgement of Receipt

Finally, I request that a copy of this letter motion be mailed to me at the ADC (or any other facility where I may be caged) with an acknowledgment of receipt, as I do not have direct access to certain court communications due to my current detention.

Sincerely,

Mohammed Chhipa
